**PDF-ExpressEditor**  
Enable advanced printouts in a unique way from any NetSuite table

**Quick, flexible and no JavaScript**  
Have you ever dreamed of the possibility to quickly create advanced printouts from any table in NetSuite without using programming skills? With PDF-ExpressEditor this is now possible!

**Up to 99 lines footer**  
In addition to the header, an advanced printout based on one or several tables can be created by business consultants or by the customer's own engineers. What printouts could be the next step of work for a developer, can now easily be accomplished in a few hours.

**PDF printouts**  
Printouts can be printed, automatically sent by email or sent to a third party printing service provider if desired.

**Become more efficient and realize more savings**  
Thanks to the simple, quick and flexible solution, more printouts can be produced in much shorter times, leading customer satisfaction and enabling profit on all sales!
